

SunArc Technologies

Vision

"To vertically integrate it and provide world class solutions while achieving widest distribution"

The purpose of **SunArc** is to serve world wide, high quality business -solutions. Our technical experts are working on startling range of technologies and have continuous urge to produce the best quality products - leaving a substantial impact on the industry.

SunArc aims to deliver high levels of reliability and performance, thereby increases the total customer value by improving its products, service, personnel, and image.

We continuously try to exploit array of technologies with wide range of industries; thereby meeting the daunting challenges and keeping the organizational excellence levels to its best.

Philosophy

Instead of finding fundamentally better ways of doing things, we equip our clients with our technical expertise to automate their process.

We re-think and redesign that high quality process by which organization creates the value and does the work.

This results into increased efficiency, cost cutting and value to distinctive competencies. It enables the management's quick response to organizational activity and reducing the amount of management by solving routine problems.

We try to achieve our goals through honesty, skill variety and responsibility. At [SunArc](#), we follow "Direct to Customer Model" where freedom is given to employees to directly interact with the clients. This practice transforms into better-tailored solutions for clients.

Culture

Organization culture is the backbone to provide stability to the organization. It affects employee's attitude, and provides understanding of how the things are done.

We, at **SunArc** break down the straight-line barriers of departmentalization and believe in empowered team oriented culture.

Thus, every member at **SunArc** has the shared meaning and intensely holds the core values. We discourage the titles and other symbols of formal authority.

Each individual has goals and is given the considerable autonomy to fulfill the goals so as to have his best inputs.

Each employee tries to manage the same image of **SunArc**. Team **SunArc** designs and facilitates the quality educational programs that promote professional and personality development facet of its employees.

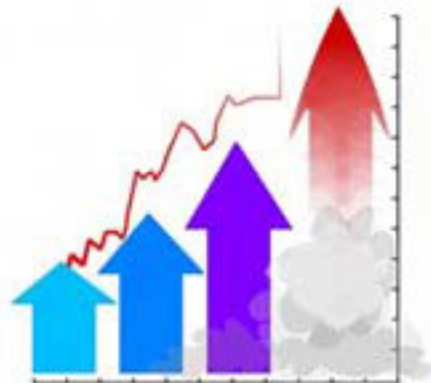

Success Ladder

SunArc is an InfoTech company with high reputation as a business and information technology consulting firm. With offices in the USA, Singapore, and India, its growth has been instrumental.

A start-up in 2001, **SunArc** has grown to the status of a quality house for timely delivery of high-end low-cost business solutions across the globe in various sectors.

The key strength of **SunArc** is the collective experience gathered over the time in executing premier software projects, and acquiring an impeccable reputation in time-bound projects with guaranteed customer satisfaction.

SunArc has been very successful with cooperative offshore development and services.
